

# OA

- もう他人ごとではない(no longer someone else's business)
  - Growing number of institutional repositories
  - Invitation to SCOAP3
  - Though collaboration with scholars is the more important
- すなわち、図書館が購読側という受け身の立場のみではなくなったということ(libraries no longer only receiving side)
- What will it be like in 10 years time(next mid-term plan for national universities, for example)

# What libraries can, or should do

- Given that
  - Japanese researchers have virtually “open access” to outcome from science
  - Libraries do not have their “own” budget
- Need to think about
  - Library in wider contexts: in education and research on campus, in the midst of scientific community, in relation to industries, in relation to the society at large, in the publishing “cycle”
  - Scholarly “communication” in a broader sense: simulation, visualization, data-centric science, etc, ie e-science
    - Data curation, metadata, preservation, reuse,
